Welcome to Curtin College

As Curtin’s Vice-Chancellor, I am pleased to welcome you to Curtin College, the preferred on-campus pathway college for students wanting a Curtin University bachelor degree. Our vision is to provide access to an extensive range of learning opportunities that meet the needs of our students in a changing global education environment. The College achieves this by providing an environment that is student-focused, supportive, and embodies high ethical standards.

Curtin College, you will find a passionate community of staff dedicated to making your student experience rewarding and enjoyable. The College offers access to courses and support programs designed to provide you with qualifications and skills that will prepare you for success in your chosen discipline at the University.

The success of Curtin College students and their graduation from the University demonstrate how much our students benefit from the teaching model, learning support, pastoral care, campus facilities and student experience provided at the College.

We look forward to helping you achieve your goals. Study hard.

Deborah Terry
Vice-Chancellor of
Curtin University

Curtin University

As one of the world’s top 50 universities under 50 years of age (as ranked by QS for 2013/14), Curtin University provides its students with a fresh, global perspective.

The University offers a wide range of courses at undergraduate, postgraduate and doctoral levels across the disciplines of business, humanities, science and engineering, and health sciences. Combining theory with practical study, the University produces career-ready graduates able to benefit from national and international accreditation applicable to many of the courses.

The University’s recent history is one distinguished by multimillion-dollar investments in student and research facilities across the University, often realised through partnerships with government and industry leaders.

A GLOBAL UNIVERSITY WITH BIG IDEAS

In addition to the flagship campus in Perth, Western Australia, Curtin has campuses in Sydney, Singapore and Sarawak. Regardless of the campus you choose, you’ll be well placed to launch or further your professional career in this growing region and beyond.

Why Curtin College?

Curtin College’s flexible approach to entry requirements makes it an open and accessible institution, serving the needs of a diverse range of students. Our highly qualified, friendly and committed staff provide personal support to all students ensuring academic success and an enjoyable, memorable experience.

YOUR PATHWAY TO CURTIN UNIVERSITY

Since 2000, Curtin College has established itself as the major pathway to Curtin University, Western Australia’s largest university. Located on the main Curtin campus in Perth, Western Australia, Curtin College has produced over 7,000 students who have successfully progressed to the second year of a bachelor degree at the University. Curtin College is a Registered Training Organisation (RTO) and higher education provider offering Curtin University units.

The advantages of studying at Curtin College include:

- The College is located on the main campus at Curtin University, providing access to Curtin’s extensive range of resources and facilities.
- Students studying first year units will gain a Diploma qualification, as well as entry into the second year of their chosen bachelor degree at Curtin University.
- Fast-track options are available, with the trimester system offering three intakes per year.
- Smooth transition to year 2 at Curtin University.
- Small class sizes and a range of study support services to prepare you for university studies.
- Cultural diversity – around 1,200 students from 40 countries.

Support while you study

We’re here for you, every step of the way.

Curtin College students can attend a number of support classes and workshops at no extra cost. This additional support serves to enhance your performance at the College and better prepare you for future study at the University.

ACADEMIC MASTER SERIES WORKSHOPS (AMS)
The aim of these workshops is to develop and build on your skills in key areas necessary to succeed at university such as time management, referencing, report writing, essay writing, and academic writing. They help to develop your confidence, to make your learning easier and more effective, and to increase your understanding of the university environment and expectations of lecturers.

ACADEMIC DROP IN SESSIONS
At the Drop In sessions, Curtin College students are able to get individual assistance with the preparation and presentation of assignments, referencing, language skills and general study skills. You can drop in at any time during the sessions to speak to an academic advisor.

MATHS CLINIC
The clinic is for all students studying any maths unit at the college. You can receive individual assistance with a maths lecturer on difficult problems and concepts that you’re struggling with during the course.

ACADEMIC PEERS
Academic Peers are also on hand, so you can count on extra support from your peers too. This program is made up of high achieving students who are happy to assist you in your subjects. This is a great way to get advice from other students on coping with the work load and forming study groups.

ON-CAMPUS ENGLISH LANGUAGE DEVELOPMENT
Once enrolled at Curtin College, the following English support sessions are available and may be required for some students. These classes can be studied alongside your main study program.

ACADEMIC LANGUAGE ENGLISH PROGRAM (ALEP)
ALEP is a free 9 week program offered to Diploma students to help further develop their academic and English language skills. It is offered in all course streams and may be required if you score poorly in the entry English language test. ALEP focuses on the 4 language skills of listening, speaking, reading and writing, and grammar.

UNIVERSITY READINESS PROGRAMME (URP)
URP is a 7 week program offered to Certificate IV students to develop the English communication skills that you will need to succeed in a tertiary environment. URP runs as an interactive workshop where students actively participate in learning language.

The Curtin College Pathway to your Curtin University Degree:

- Pre-university
- Tertiary Access Program (TAP)
- Higher Education Diploma
- Your Bachelor Degree
  - Year 1
  - Year 2
  - Year 3

*Duration of degree is dependent upon chosen discipline.
HOW DO I PROGRESS TO THE SECOND YEAR AT CURTIN UNIVERSITY?
Curtin College Diploma graduates must meet the minimum academic requirements and course-specific progression rules, in order to articulate with advanced standing into Year 2 of the corresponding bachelor degree at Curtin University.

Failure to pass all diploma units (200 credits), or meet the progression rules for your course will result in an extension of your study period and/or change to an alternative program of study in order to complete the Curtin College diploma.

Each study program has specific progression requirements in which you must achieve a minimum specified course average to progress to the next course in your packaged offer. These progression rules can be found on the Curtin College website. If your application to study is successful, you will receive a Letter of Offer, which will also state the progression rules necessary to progress.

HOW DOES THE TRIMESTER AND FAST-TRACK SYSTEM WORK?
For the Certificate IV Tertiary Preparation Program, Tertiary Access Program and Diplomas (excluding Diplomas of Engineering, Health Sciences, and Information Technology), the academic year is divided into three 13-week trimesters as follows:
• Trimester one: February to May
• Trimester two: July to October
• Trimester three: November to February.

The flexibility of the trimester system allows dedicated students to fast-track most Curtin College programs, reaching your desired degree at Curtin University sooner. Should you prefer a more gradual transition into university, you may be able to extend your studies over three trimesters, ensuring completion of the course within a 12-month period.

Please note: Early completion of a Curtin College program may alter the total packaged course duration.
For Diplomas of Health Sciences, Information Technology and Engineering, the academic year at the College follows the Curtin University semester calendar:
• Semester one: March to June
• Semester two: August to November.

Please refer to the course pages for the intakes available for each course.

IS ORIENTATION COMPULSORY?
Yes. It is essential that you attend orientation. Subject to availability at the time of enrolment/during orientation, you may select your desired class times.

HOW WILL I BE TAUGHT?
At the College, students are exposed to a variety of teaching methods designed to promote a stimulating learning experience. Lecturers provide you with an outline for each unit of study, and ensure you acquire the relevant knowledge and skills. Lecture groups average between 20 and 50 students. The smaller class sizes at Curtin College ensure lecturers are able to get to know your personal study needs and you will normally have more contact hours with teaching staff than in the equivalent undergraduate classes at the university.

You can apply your knowledge and develop practical skills with group and individual project work as well as in laboratory sessions. Curtin College tutors have access to the latest technology and facilities to support their teaching and students benefit from interactive classrooms.

Tutorials and seminars are designed to complement the preceding lectures and provide a workshop environment to ensure you receive dedicated attention from the lecturers.

Every effort is made to ensure academic success, however you are expected to undertake private study, usually six to eight hours of additional study per week, per unit.

HOW WILL I BE ASSESSED?
You can expect a combination of written examinations, assignments, essays and presentations, depending on the area of study. Participation in seminars and tutorials is also taken into consideration. Coursework may include group projects and practical work.

CAN I GET CREDIT FOR PREVIOUS STUDY AND EXPERIENCE?
Credit for Recognised Learning (CRL) enables you to complete specified Certificate or Diploma courses sooner and is usually based on successful completion of equivalent modules or units of study at another institution. Applications for credits should include unit outlines (syllabus) and certified copies of any academic transcripts.

Curtin College also recognises the skills and knowledge you may have gained from life experiences, work experience and any training provided through previous employment. Requests for CRL should be made at the time of application and prior to enrolment in Australia to ensure that correct visas are issued. Approval of CRL after the your visa has been granted may require the College to report the change of course duration under Section 19 of the ESOS Act. The granting of a Curtin College Diploma is contingent on students having studied a minimum of 50% of the course at Curtin College.

WHAT IS A PACKAGED OFFER?
Curtin College provides a packaged offer that leads to your bachelor degree at Curtin University. Curtin College package diplomas to single degrees, however if you wish to enrol in a double degree, you can do so by applying to Curtin at the end of your diploma. Current visa regulations allow students who wish to study a preliminary course(s) and a principal course (e.g. Diploma followed by a bachelor degree) to apply to have their program of study packaged onto one visa. Course packaging allows students to complete more than one course without having to re-apply for student visas or leave Australia to make the relevant applications. Students simply apply for a visa associated with the principal course.

The visa granted will be for the duration of all courses within the packaged offer provided you have been issued with an electronic Confirmation of Enrolment (eCOE) for each course.
The Diploma of Built Environment provides entry into four different career paths:

### Architectural Science
- This course covers the design of buildings, the technical aspects of building construction, how architecture relates to people and how they live, and the communication of architectural ideas through written and spoken reports, photographs, drawings, models and the electronic media. You may use the knowledge gained in this course to seek employment within the architectural profession or building industry or continue study to complete the Master of Architecture to meet the requirements for registration as an architect.

### Interior Architecture
- Interior designers design quality environments for a diverse range of users and functions. They coordinate the design and construction of building interiors including commercial, workplace, hospitality, medical, gallery, and retail environments. In addition, interior designers may be involved with more transient environments and the associated displays for trade fairs, exhibitions, museums, and public events.

### Construction Management
- Construction Management is structured in a format that relates specifically to the career aspirations of students wishing to work as project managers, quanting surveyors, construction managers, estimators, and contract administrators, preparing students for professional careers in building, construction and related industries.

### Urban & Regional Planning
- This course has accreditation from the Planning Institute of Australia. The distinguishing characteristic of this course is the use of interdisciplinary knowledge and techniques in addressing environmental, social and design issues concerning the community. It is now widely accepted that successful human settlements must be properly planned and a range of central exist at all levels of government to protect the public interest in the development process. The involvement of individuals and community groups in the preparation and implementation of plans is now considered vital to successful development outcomes.

### Entry into Curtin Year 2
- Bachelor of Applied Science (Architectural Science) CRICOS Code: 02308K
  - Remaining duration of degree: 2 years full-time.
- Bachelor of Applied Science (Interior Architecture) CRICOS Code: 02307K
  - Remaining duration of degree: 3 years full-time.
The following majors are available:

- Accounting, Economics, Business Law, Entrepreneurship, Accounting, Finance, Financial Planning and Business Law.

Curtin Business Administration courses are designed to give you an understanding of the key areas of business administration. The program aims to prepare you for management roles in the private and public sectors, as well as the global environment. In this course you will have special opportunities for developing industry experience through exciting projects.

Median graduate starting salary – Accounting: $47,000
Median graduate starting salary – Business Studies: $46,000
Median graduate starting salary – Economics: $50,000
Median graduate starting salary – Humanities: $45,000
Median graduate starting salary – Management: $52,000
Median graduate starting salary – Marketing: $51,000
Median graduate starting salary – Property Development: $54,000
Median graduate starting salary – Supply Chain Management: $53,000
Median graduate starting salary – Tourism and Hospitality: $52,000
Median graduate starting salary – Visual Communication Design: $50,000
Median graduate starting salary – Writing and Publishing: $48,000
Median graduate starting salary – Web Design and Development: $49,000
Median graduate starting salary – Digital Media: $47,000
Median graduate starting salary – Graphic Design: $46,000
Median graduate starting salary – Interior Design: $45,000
Median graduate starting salary – Design Management: $44,000
Median graduate starting salary – Design Leadership: $43,000
Median graduate starting salary – Design Strategy: $42,000
Median graduate starting salary – Design Research: $41,000
Median graduate starting salary – Design Policy and Practice: $40,000
Median graduate starting salary – Design and Art: $39,000
Median graduate starting salary – Design and Technology: $38,000
Median graduate starting salary – Design and Media: $37,000
Median graduate starting salary – Design and Innovation: $36,000
Median graduate starting salary – Design and Product Development: $35,000
Median graduate starting salary – Design and Manufacturing: $34,000
Median graduate starting salary – Design and Engineering: $33,000
Median graduate starting salary – Design and Architecture: $32,000
Median graduate starting salary – Design and Construction: $31,000
Median graduate starting salary – Design and Sustainability: $30,000
Median graduate starting salary – Design and Environment: $29,000
Median graduate starting salary – Design and Policy: $28,000
Median graduate starting salary – Design and Planning: $27,000
Median graduate starting salary – Design and Development: $26,000
Median graduate starting salary – Design and Innovation: $25,000
Median graduate starting salary – Design and Technology: $24,000
Median graduate starting salary – Design and Art: $23,000
Median graduate starting salary – Design and Architecture: $22,000
Median graduate starting salary – Design and Product Development: $21,000
Median graduate starting salary – Design and Manufacturing: $20,000
Median graduate starting salary – Design and Engineering: $19,000
Median graduate starting salary – Design and Sustainability: $18,000
Median graduate starting salary – Design and Environment: $17,000
Median graduate starting salary – Design and Policy: $16,000
Median graduate starting salary – Design and Planning: $15,000
Median graduate starting salary – Design and Development: $14,000
Median graduate starting salary – Design and Innovation: $13,000
Median graduate starting salary – Design and Technology: $12,000
Median graduate starting salary – Design and Art: $11,000
Median graduate starting salary – Design and Architecture: $10,000
Median graduate starting salary – Design and Product Development: $9,000
Median graduate starting salary – Design and Manufacturing: $8,000
Median graduate starting salary – Design and Engineering: $7,000
Median graduate starting salary – Design and Sustainability: $6,000
Median graduate starting salary – Design and Environment: $5,000
Median graduate starting salary – Design and Policy: $4,000
Median graduate starting salary – Design and Planning: $3,000
Median graduate starting salary – Design and Development: $2,000
Median graduate starting salary – Design and Innovation: $1,000
Median graduate starting salary – Design and Technology: $0,000
The Diploma of Engineering offers students an industry-connected experience, uniquely placed to provide solutions to the challenges faced by the global community.

Upon completion of the Diploma of Engineering, students proceed to one of the following Engineering disciplines: Chemical Engineering, (Chemical or Oil and Gas Stream), Petroleum Engineering, Electronic and Communication Engineering, Electrical Power Engineering, Computer Systems Engineering, Software Engineering, Mechanical Engineering, Mechatronic Engineering, Civil and Construction Engineering, Metallurgical Engineering, Mining Engineering or Environmental Engineering. The Bachelor of Engineering has been accorded full recognition by Engineers Australia.

Required Units
• Basic Science: Design & Engineering Mathematics 120
• Engineering Mathematics 140
• Engineering Mathematics 100
• Engineering Programming 100
• Academic Communication for Engineering 100
• Engineering Materials 100

DURATION: 12 months (9 units)

Certificate IV Tertiary Preparation Program
CRICOS CODE: 03677K

INTAKES: Feb, Jul

NTIS CODE: 10479N

DURATION: 8-12 months (8 units)

Required Units
• Mathematical Methods 001
• Advanced Mathematics 002
• Chemistry 001
• Communications I
• Physics 003
• Programming

Tertiary Access Program
CRICOS CODE: 07249G

INTAKES: Feb, Oct

DURATION: 4 months

Required Units
• Basic Science 001
• Chemistry 002
• Communications II
• Electrical Systems 100
• Engineering Foundations: Design & Process 100

Diploma of Engineering

Entry into Curtin Year 2
Bachelor of Engineering (Hons)
CRICOS Code: 072467K

Remaining duration of degree: 2 years full-time

“Best and worst study experience. The lecturer was very helpful when I had problems completing my essays. They never complained although I asked them again and again. They will always be there when you are in need and they encourage you to ask questions.”

— Student at Curtin, Diploma in Health Science

Exercise, Sports & Rehabilitation Science

Exercise, Sports & Rehabilitation Science

This course may help you become an exercise or sports scientist working with organisations, community groups, teams and individuals in exercise and sports settings as a coach, personal trainer, gym instructor, exercise scientist evaluating training and performance.

You will develop a strong understanding of the human body and health in your first year. Your subsequent years will be devoted to a more intensive study to further develop your knowledge and skills related to exercise and sports science. You will develop practical skills in laboratory settings which can be applied in a range of settings, working with people from all age groups. Emphasis is placed on professional development and strong interpersonal communication skills, which are attributes of client-centred practice.

Median graduate starting salary - Rehabilitation: $50,900

Diploma of Health Sciences (Exercise, Sports & Rehabilitation)

CRICOS Code: 04079K

Entry into Curtin Year 2
Bachelor of Science (Exercise, Sports & Rehabilitation Science)
CRICOS Code: 07771A

Remaining duration of degree: 2 years full-time

Course Specific Units
• Exercise Science for Health 100
• Functional Anatomy 100
• Foundations of Exercise Science and Rehabilitation 100
• Introduction to Psychology 100

Entry into Curtin Year 2
Bachelor of Science (Food Science and Technology)
CRICOS Code: 02919K

Remaining duration of degree: 2 years full-time

Course Specific Units
• Introduction to Chemistry 180
• Introduction to Bioprocess Chemistry 190
• Food and Nutrition Principles 191
• Introduction to Food Safety 180

Entry into Curtin Year 2
Bachelor of Science (Food Science and Technology)
CRICOS Code: 04079K

Remaining duration of degree: 2 years full-time

Course Specific Units
• Introduction to Chemistry 180
• Introduction to Bioprocess Chemistry 190
• Food and Nutrition Principles 191
• Introduction to Food Safety 180

Food Science & Technology

The food industry is the largest industry in the world and needs highly trained professionals in food science and technology to ensure the supply, quality and safety of food. The study of food science and technology involves the application of basic science and the latest developments in the handling, processing and packaging of foods from the farm to the consumer’s plate. Food scientists determine the quality and properties of foods including the nutritive value, flavour, palatability, colour texture and storage life using sensory, chemistry and microbiological techniques. Food scientists apply their knowledge of food science to operate, design and manage the facilities and equipment involved in the processing and storage of foods. Food scientists are responsible for the research and development of new food products and new technologies in the processing of foods.

Graduates may find employment in government and private industry - both in Australia and overseas. Areas of professional opportunity include food quality assurance, research and development of new products and new processing technologies, microbiology, technical consulting, and sales and marketing. Potential employers include food suppliers and manufacturers, beverage manufacturers, pharmaceutical companies, supermarketers, airlines, wine companies, hospitals, teaching institutions and federal, state and private research laboratories.

Exercise, Sports & Rehabilitation Science

This course may help you become an exercise or sports scientist working with organisations, community groups, teams and individuals in exercise and sports settings as a coach, personal trainer, gym instructor, exercise scientist evaluating training and performance. You will develop a strong understanding of the human body and health in your first year. Health Sciences

Health Sciences

This degree is excellent if you wish to pursue a career in Allied Health but are not yet ready to commit to a particular profession. Our graduates are able to access and critically evaluate scientific literature, are accomplished communicators and are well equipped for a career in health-related research or education. The course emphasises the development of problem-solving skills in a collaborative environment. This course prepares you for prerequisite exams for graduate entry into medicine and dentistry. Graduates may also apply for entry into professional master programs including those in physiotherapy, occupational therapy, pharmacology, chiropractic, nursing, speech pathology, and audiology. You may also qualify to enter research programs leading to higher degrees in the life sciences.

Health Sciences

Molecular Genetics and Biotechnology

Molecular Biotechnologists will help provide solutions to some of the most challenging and pressing problems facing humanity including prevention and control of human, animal and plant diseases, reversal of environmental degradation and feeding the world’s population. ‘DNA chips’ can detect expression of thousands of genes enabling rapid diagnosis of many diseases in a single test. Individuals will have access to their own DNA sequence and hence predict their propensity to develop cancer. Alzheimer’s, diabetes, heart failure and many other human diseases. Genetic engineering is being used to design new vaccines, antimicrobial agents and pharmaceutical drugs for prevention and control of many diseases. Graduates look forward to a wide array of challenging careers working alongside other scientists, medical and health-care professionals, engineers, computer software developers, lawyers, business professionals and entrepreneurs.

Laboratory Medicine

Laboratory Medicine is divided into six major areas of study: clinical biochemistry, haematology and blood transfusion serology, histopathology, diagnostic cytology, medical microbiology, medical biotechnology and immunology. All disciplines involve the study, examination and analysis of body fluids and tissues by physical, chemical, biochemical and biological methods to provide information essential for the diagnosis and treatment of disease. A degree in laboratory medicine offers diverse career opportunities in hospital laboratories, private pathology, the biomedical and biotechnology industries, academic research centres, veterinary pathology, and forensic science.

Human Biology Preclinical

Lab science students are involved in professional practice that involves the study, examination and analysis of body fluids and tissues by physical, chemical, biochemical and biological methods to provide information essential for the diagnosis and treatment of disease. A degree in laboratory medicine offers diverse career opportunities in hospital laboratories, private pathology, the biomedical and biotechnology industries, academic research centres, veterinary pathology, and forensic science.

Human Biology Preclinical

Laboratory Medicine

Molecular Biotechnologists will help provide solutions to some of the most challenging and pressing problems facing humanity including prevention and control of human, animal and plant diseases, reversal of environmental degradation and feeding the world’s population. ‘DNA chips’ can detect expression of thousands of genes enabling rapid diagnosis of many diseases in a single test. Individuals will have access to their own DNA sequence and hence predict their propensity to develop cancer. Alzheimer’s, diabetes, heart failure and many other human diseases. Genetic engineering is being used to design new vaccines, antimicrobial agents and pharmaceutical drugs for prevention and control of many diseases. Graduates look forward to a wide array of challenging careers working alongside other scientists, medical and health-care professionals, engineers, computer software developers, lawyers, business professionals and entrepreneurs.

Health Sciences

Nursing
This course provides a comprehensive program of study involving a diverse range of simulated practice and fieldwork, inter-professional learning, contemporary blended learning, advanced clinical skill development and opportunity for an international study experience. Employment is available in diverse healthcare settings including teaching hospitals, public and private hospitals; mental health facilities and allied health services (clinics, alcohol and drug centres); community health agencies; aged care; primary healthcare settings; medical practices with general and specialist practitioners; and defence services. Median graduate starting salary – Nursing Initial/Positional: $49,000/$50,000

Nutrition
Nutrition is the science of how the human body obtains and uses nutrients from food for maintenance, growth and renewal of body tissues to sustain life. The study of nutrition is based on and integrated with the sciences of biochemistry and physiology. Nutritionists advise individuals and the community about food choices for a healthy and nutritious diet. Graduate nutritionists typically undertake one further year of study to specialise in a professional area, including dietetics, research, food science and technology, health promotion or teaching.

Government organisations and the food industry have a high demand for graduates in a range of areas, including public health, nutrition education programs, nutrition advice, research related to food and nutrition in health and disease, and the development of new food products. Potential employers include health departments, community and public health centres, welfare organisations and non-government agencies, food suppliers and manufacturers, teaching institutions, and federal and state research laboratories.

Certificate IV Tertiary Preparation Program
CRICOS CODE: 041073K
NTIS CODE: 104794K
DURATION: 12 months (9 units)
Required Units
• Business Mathematics
• Biology 001
• Business Studies
• Human Structure and Function 100
• Human Biology 100
• Introduction to Computing
• Statistics

Tertiary Access Program
CRICOS CODE: 041073K

DURATION: 6 months
Intakes: Feb and Jul
Course Specific Units
• Foundations for Professional Health Practice 100
• Health and Health Behaviour 130
• Indigenous Culture and Health 100
• Integrated Systems Anatomy and Physiology 100
• Nutrition Practice 161

Entry into Curtin Year 2
Bachelor of Science (Nursing)
CRICOS Code 003887T
Remaining duration of degree: 2.5 years full-time.

Pharmacy
Pharmacists are involved in the development, testing, manufacture and distribution of medicines and the monitoring of drug therapy. The Bachelor of Pharmacy offers practical experience as well as a theoretical grounding in the discipline of pharmacy and is the only undergraduate program in Western Australia that leads to registration as a pharmacist. In addition to providing community-based healthcare, this degree allows you to exercise business management skills in a professional setting. You may enter hospital pharmacy to help contribute to patient care in a secondary or tertiary healthcare environment and to extend your clinical expertise in a wide range of areas. The pharmaceutical industry, which manufactures most medicines today, offers many employment opportunities. These include research roles in the development of medicines, production of pharmaceuticals, quality assurance, regulatory services, marketing and drug information. You may also play a large role in regulatory control and policy development.

• Introduction to Computing
• Introduction to Mathematics

Entry into Curtin Year 2
Bachelor of Science (Occupational Therapy)
CRICOS Code 003620B
Remaining duration of degree: 3 years full-time.

Ocupational Therapy
Occupational Therapy is a profession concerned with promoting health and well-being through occupation. The primary goal of occupational therapy is to enable people to participate in the activities of everyday life. Occupational therapists achieve this outcome by enabling people to do the things that will enhance their ability to participate or by modifying their environment to better support participation. Occupational therapists have a broad education that equips them with skills and knowledge to work collaboratively with individuals or groups of people (and their communities) who have an impairment of body structure or function due to a health condition, and who experience barriers to participation. Occupational therapists believe that participation can be supported or restricted by physical, social, attitudinal and legislative environments.

The excellent reputation of Curtin's OT course means our graduates are in high demand in areas of high need. You may be employed in a health, community or industry setting including urban and rural community-based programs, private practice, medical and vocational rehabilitation units, psychiatric services, mining and resource industries, and schools.

### Health Sciences

**Physiotherapy**
As Physiotherapy students you will undertake the learning experiences to gain the knowledge, skills, attitudes and behaviours expected of an entry level physiotherapist. The course has a hybrid structure using curriculum-based learning to efficiently teach foundation knowledge together with case studies and clinical practice to integrate knowledge into clinical decision making. It also emphasises evidence-based practice and encourages your critical thinking.

The Bachelor of Physiotherapy is accredited by the Australian Health Practitioner Regulation Agency and the Physiotherapy Council and is recognised by the Physiotherapy Board of Australia, the Australian Health Practitioner Regulation Agency and the Australian Physiotherapy Association.

Median graduate starting salary: $60,000

### Psychology
Psychology encompasses all aspects of human behaviour, using tested theoretical frameworks to examine, explain and predict what we do as individuals and in groups.

Graduates of the four-year program are eligible to apply for associate membership of the Australian Psychological Society (APS) and provisional registration. In Australia, two years supervised psychological practice after fourth year or completion of a two-year master program is required for full registration as a psychologist.

Median graduate starting salary – Psychology: $49,000

---

**Information Technology**

This course has been introduced to address a significant market demand for skills associated with the design of distributed computing environments and the networks that underpin them.

This course encompasses computer technology, in terms of both hardware and software, as well as computer communications and networking incorporating Local Area Networks (LANs), Metropolitan Area Networks (MANs) and Wide Area Networks (WANs) together with network management. You will study the fundamental programming and theoretical knowledge of computing, as well as C++ and Java. Linux and object oriented programming skills are also taught.

After completion of the Diploma, you can choose to study Bachelor of Technology (Computer Systems and Networking) or Bachelor of Science (Computing), which offers majors in Information Technology, Computer Science, Software Engineering and Cyber Security.

Median graduate starting salary – Computer Science: $50,000

### Social Sciences

Develop the practical and transferable skills you need for the workforce: skills that lead graduates into industry, commerce, government and education.

This course offers you the opportunity to study one or two disciplines from a wide range of majors. If you are studying only one major, you will be able to select further units from the same discipline, or may select alternative units from other courses. Majors include Anthropology and Sociology, History, International Relations and Geography.

Median graduate starting salary – Social Sciences: $45,100
Median graduate starting salary – Education (Initial/Positional): $53,000/$60,000

Perth: city of lights

Perth is a fast growing city with a young, cosmopolitan outlook. Consistently ranked in the top ten most liveable cities in the world, Perth is renowned for its natural beauty, relaxed atmosphere and clean, open spaces.

The City of Perth is proud to be home to people from Asia, Africa, Europe and the Middle East, with each community contributing to Perth’s fascinating cultural diversity. A safe, clean and vibrant city, Perth offers a healthy, relaxed environment where you are made welcome and are able to excel in your studies while exploring this beautiful city.

Perth shares the same time zone as Singapore, Hong Kong, China and Malaysia. There is only a one-hour time difference between Perth and Indonesia, Thailand, Korea and Vietnam, making it easy to keep in touch with your friends and family whilst studying. As a major gateway to Asia, numerous daily flights depart from Perth directly to a number of Asia’s major centres.

The CBD is a bustling metropolis surrounded by shops, restaurants and cafes, much of which can be seen from Kings Park, which is a short walk away and one of the world’s largest inner city parks. Combined with Perth’s beautiful coastline and vibrant night-life, you can be sure there will be many fascinating experiences awaiting you.

The city boasts a strong, stable economy and historically has one of the lowest unemployment rates of all major Australian cities. Western Australia is a state renowned for its mining exports and provides a substantial proportion of the world’s natural resources, which are a major contributor to the overall wealth and prosperity currently being enjoyed by Western Australians.

CAN I WORK PART-TIME WHILE STUDYING?
Students may work up to 40 hours per fortnight during study periods and unlimited hours during holidays. In line with Western Australia’s burgeoning economy, you may be able to take advantage of a number of part-time work opportunities and could find work in shopping precincts near the campus and in other areas around the city.

HOW DO I GET AROUND?
Perth has a reliable and sophisticated public transport system. The city’s network of trains and buses enable you to get around quickly and cheaply.

**For more information**

For more information about Curtin College accommodation options, please visit curtincollege.edu.au/students/accommodation-curtin.

For accommodation enquiries please go to perthstudentaccommodation.com.

Homestay
Students may seek an authentic cultural experience by living with an Australian family in what is known as a homestay arrangement. Some host families come from places like Europe, Malaysia, Singapore, Indonesia and Hong Kong. Homestay consists of a variety of family environments including married couples (with or without children), single parents or a single person. You are able to apply for homestay via the Perth Student Accommodation (PSA) website www.perthstudentaccommodation.com. A placement fee is paid to PSA. You may also access the homestay placement services offered by Australian Homestay Network at: www.homestaynetwork.org/public/curtin-collegestudents.

**OTHER ACCOMMODATION OPTIONS**

Perth Student Accommodation can provide the details of a local housing agency that has rental accommodation and information about other properties close to the College for students who prefer to make alternative arrangements for private accommodation.

**ACCOMMODATION FOR STUDENTS UNDER 18 YEARS OF AGE**

Australian immigration rules for students under the age of 18 require that Curtin College approves all accommodation and welfare arrangements before students can travel to Australia. Curtin College will approve arrangements for students who will be living with parents, legal guardians, other appropriate family members or genuine family friends. The local host must be of good character and be over the age of 21.

Where no local carer is available, Curtin College requires that students under the age of 18 reside in Curtin College accommodation (see further information under Homestay).

University Sydney and Curtin Singapore are operated by Navitas Ltd.
Curtin University is a self-contained, student-oriented locality with
many services and facilities within walking distance. In addition to
the multi-story library and student bookshop, there are full banking
facilities, many cafes and eateries, a chemist, a medical centre, shops,
majors, a copy and design centre, a hairdressing salon, childcare
facilities, an art gallery, an excellent gymnasium and fitness centre,
and many active sports clubs and societies. Curtin College students
are welcome to join in most aspects of University life and can become
associate members of the Curtin Guild to gain on- and off-campus
counts, as well as access to clubs, competitions, events and
Curtin University Bentley Campus
Curtin College classes are conducted on the Bentley campus of Curtin
University in Perth. The College is housed in Building 205 in the heart
of the campus. The building features a reception area on the ground
floor, which handles all current and prospective student enquiries, as
well as offices, classes and computer labs on the other floors.
HEALTH SERVICES
The Health Services Centre incorporates a doctor’s surgery, where
students can make appointments with either a doctor or nurse.
Nursing staff are available to assist in the treatment of accidents and
injuries that may occur on campus.
CHAPLAINCY SERVICES
Students have access to free and confidential chaplaincy services,
which are provided for the benefit of the Curtin community. Visiting
chaplains are active on campus and come from a variety of religious
orientations. A prayer and meditation space and a reflection garden
are available for people of any faith.
BOOKSHOP
The Co-operative Bookshop is located in the John Curtin Centre
(Building 200). It stocks a wide range of textbooks as well as
stationery, newspapers, magazines, novels, postage stamps,
computer and mobile phone products.
Curtin College family from day one.
Past and up-coming events, designed to ensure you feel part of the
student and facilities.
LIBRARY AND INFORMATION SERVICES
Curtin’s five-story library is at the centre of the campus and houses
some of the latest research technology and academic resources. An
enquiries desk is located on level two, where library staff are available
to answer questions.
BUS STATION
The Curtin University bus station is one of the busiest in Perth, with
seven different services stopping frequently during semester. The
Circle Route, which runs between Perth’s universities, train stations
and shopping centres, stops every 15 minutes between 6.30am and
6.00pm on weekdays. During semester, Curtin University also offer a
free courtesy bus that services some of the local suburbs.
SAFETY AND SECURITY
Curtin Security provide 24-hour support every day of the year.
Buildings are only accessed via security cards and students can take
advantage of the Safezone Student Safety App. It’s one less thing to
worry about.
ORIENTATION
As a new student, you must attend a compulsory orientation program
conducted prior to the start of your studies. Orientation provides
information and advice. Orientation is an opportunity to meet fellow
students and key College staff and to become familiar with services
and facilities.
You will have access to orientation leaders and student mentors, who
are all successful students or recent Curtin College graduates and are
available to give advice, provide reassurance and help students adjust
to College life.
THE UNIVERSITY EXPERIENCE
Curtin College students enjoy the Curtin experience right from the
start. In addition to all that Curtin University has to offer, the College
has a thriving social calendar with regular events and experiences
available to all students. Visit facebook.com/CurtinCollege to view
past and upcoming events, designed to ensure you feel part of the
Curtin College family from day one.
Curtin College – Building 205

and many active sports clubs and societies. Curtin College students
are welcome to join in most aspects of University life and can become
associate members of the Curtin Guild to gain on- and off-campus
counts, as well as access to clubs, competitions, events and
campus sport. Curtin University is a completely smoke-free campus.
Curtin College offer a range of flexible entry options to assist students progressing to Curtin University. Please visit curtincollege.edu.au/apply-today/curtin/admissions-requirements/curtin or contact Curtin College directly if the entry requirements for your country are not listed. NB: Entry into some courses may also require successful completion of pre-requisite subjects. See p29 of this brochure.

### Disclaimer
Entry requirements are subject to change. Prospective students are encouraged to contact Curtin College directly at the time of application for the latest information regarding availability of courses and entry requirements.

CURTIN ENGLISH

Located just meters from the Curtin College building on Curtin University’s Bentley campus, Curtin English is the first-choice English provider for the large majority of Curtin College students who require English development prior to entering their main course of study. The English language programs offered by Curtin English are General English, English for Academic Purposes (EAP) and the English Language Bridging Program (ELB). The ELICOS program can be used to meet the English, English for Academic Purposes (EAP) and the English Language requirements of Diploma of Commerce | Diploma of Arts & Creative Industries.

PROVISIONAL ENTRY OPTION

Diploma of Commerce | Diploma of Arts & Creative Industries (Design & Art Stream)

Students with an IELTS of 5.5, no band below 5.0 (plus the required academic score), may be able to begin the diploma on a provisional entry basis.

Two academic diploma units are studied in the first trimester, in addition to the required Tertiary Communication Skills sessions.

The aim of these sessions is to improve the use of English across the four main skills of reading, writing, speaking and listening, as well as developing your use of grammar and vocabulary at Curtin College. Using a variety of exciting and interesting resources, these sessions will help you to communicate more effectively and accurately in an academic context. Once completed, you may study the remaining six academic units over two semesters.

CURTIN COLLEGE INTERNATIONAL SCHOLARSHIP

Navitas offers financial support in the form of family bursaries. A family bursary applies where two or more students from the same family study at a Navitas institution, either at the same time or one after the other. For the purpose of this bursary, a family member is defined as a brother, sister, mother, father, son, daughter or stepchild.

The family bursary is granted to the second and subsequent family members who study with a Navitas institution. The bursary is credited to the eligible student’s tuition fee account each semester (the bursary does not apply to additional units or repeat units that may also be undertaken). The bursary does not apply to additional units or repeat units that may also be undertaken.

Please note:
1. The Navitas family bursary is not applicable to English language programs or any component of an English language program offered by Navitas members. Please contact the relevant Navitas member for more information.
2. The Navitas family bursary applies to students studying at ACN, Curtin College, Curtin Sydney, El PI, HIC, LBIT, MQC, MBT, PBT, QBT, SABT and NIC only.

NAVITAS ACADEMIC MERIT SCHOLARSHIPS

Navitas is committed to helping students achieve their career goals by offering scholarships to outstanding students. The Navitas academic merit scholarships are awarded each term by each Navitas pathway college or managed campus. Two students with the highest GPA in four or more subjects or courses will each receive a scholarship.

The scholarships cover:
One academic term or part thereof at a Navitas member institution (equivalent to tuition for a maximum of up to five academic subjects or courses) for:
- a Navitas Diploma, Advanced Diploma or Associate Degree (Australia)
- UTP Stage II or Associate Degree (Canada) - UPP or UITP (USA)
- Undergraduate pathway programs / 1st Year Degree (UK), or one academic semester of foundation or undergraduate study at ACN, Curtin University Sydney, Curtin Singapore or Macquarie city campus,
- one academic semester of a Master program at Curtin University Sydney, Curtin Singapore or Macquarie City Campus.

The scholarships are applied to the tuition for the second term of enrolment only or final semester of study in an undergraduate/postgraduate program. The scholarship panel from each Navitas member institution will announce the recipients of the Navitas academic merit scholarships upon the completion of each term or semester and the release of the results. The recipients will be notified by mail and the successful students posted on the college website, by consent. Students are not required to apply for the scholarships as it is awarded based on academic performance and ALL students are eligible.

ACADEMIC MERIT SCHOLARSHIP POLICY

1. Two scholarships for one academic term’s tuition are offered at all Navitas member institutions each semester.
2. Students must be enrolled full-time to qualify for the scholarships.
3. Where the Academic Assessment Committee must differentiate between equally qualified applicants, additional factors such as educational disadvantage, member of specific equity group and/or significantly adverse personal circumstances may be taken into account.
4. Students are eligible to qualify for the scholarships after successful completion of their first term and after beginning their second term.
5. Students can only be awarded the scholarship once.
6. Students already in receipt of a scholarship may not be eligible for the Navitas scholarship.
7. Students are required to pay for any additional courses/subjects undertaken over and above the amount covered by the scholarship. Please contact Curtin College for more information.

CALCULATION OF FEES

The tuition fees shown represent full-time study over the period indicated. Actual tuition fees are calculated on a per-unit basis, and variation to a normal full-time course load will result in a pro-rata adjustment to tuition fees. Tuition fees may rise each year.

This fee schedule should be read in conjunction with Curtin College’s published refund policy.

Tuition fees are payable in advance prior to the commencement of a study period. A levy may be payable if fees are not paid by the due date. Students can only re-enrol if the tuition fees have been paid. Students repeating a failed unit have to pay tuition fees for that unit again. Fees are payable before each study period. Students pay the rate applicable for that academic year and not the rate of the year in which they began their course. Please note that fees are subject to an annual review. Tuition fees do not include textbooks, stationary or OSHC charges. An ancillary fee or additional separate charge may apply to particular units (e.g. uniform, lab coat, etc.).

Please refer to curtincollege.edu.au for further information.

Curtin College Policies

Curtin College policies are in place to ensure you understand your rights and responsibilities. It is important that you read the following policies before you sign your Letter of Acceptance, as they can affect your student visa:
- Academic Policy
- Complaints Policy
- Deferral & Withdrawal Policy
- Enrolment Policy
- Progress and Attendance Policy
- Refund Policy
- Transfer Between Registered Providers Policy.

Visit curtincollege.edu.au/policies-curtin to view these policies.

The Complaints Policy stipulates that any current or prospective student of Curtin College or its partner providers who experiences incorrect, improper, unfair or unsatisfactory treatment in the course of their relationship is entitled to access the complaints process set out in this policy, regardless of the location of the campus or institution to which the matter has arisen, the student’s place of residence or the mode in which they study.

Please refer to curtincollege.edu.au for further information.

See fees for details.
Application process

1. Application process

All international students must be in possession of a current study visa to be able to study in Australia. This visa is issued by the Australian Diplomatic Missions and application must be made directly to the nearest Consulate or Embassy. You are encouraged to use the services provided by our local agents who understand this process. The main documents required are:

- Letter of Offer from Curtin College
- Electronic Confirmation of Enrolment (eCoE), which is issued by the College upon receipt of fees
- Medical Examination Results
- Proof that OSHC has been arranged
- Proof of financial capability to pay tuition fees and living expenses.

Student visas are granted with certain conditions attached, including that you must:

- Satisfy course requirements – must attend a minimum 80% of all scheduled classes and make satisfactory academic progress
- Remain enrolled at all times
- Inform your education provider of any change of address
- Contact your current education provider if wanting to change institution within the first six months of commencing the principal course.

Curtin College is obliged under Australian Legislation to notify the Department of Immigration and Border Protection (DIBP) immediately when becoming aware of and breach regarding a student visa.

Please visit www.immi.gov.au/students for more information.

Applications can be made at any time. Please make sure to allow adequate time for the processing of your student visa.

1. Complete the application form in this book or apply online to take advantage of priority processing.
2. Attach certified copies of all academic qualifications, including school reports, official examination certificates and evidence of English competency (if required). Certified translations must accompany those which are not in English. Copies can be verified by:
   - the official records department of the institute that originally issued documents
   - a Justice of the Peace or Public Notary
   - an authorised Curtin College representative
   - an Australian overseas diplomatic mission or Australian Education
3. If not applying online, send your documents to Curtin College or one of our representative offices.
4. Successful applicants will be sent a Letter of Offer. We aim to make offers after 48 hours of your supporting documents are complete, although there can be delays when credit/exemption is sought for previous study, further checks are required during the offer period. It can take up to 10 days to process your application.

Payments should be made in Australian dollars to Curtin College by bank cheque or international bank draft. Payment can also be made by direct transfer to:

    Account name: Curtin College
    Bank name: Westpac Banking Corporation
    Branch address: Westpac Institutional Bank, 109 St Georges Terrace, Perth, Western Australia, 6000
    BSB: 036-000
    Account no: 773892
    SWIFT Code: WPACAU2S

Please include your full student ID on every transmission. We accept Visa, Mastercard and Bankcard credit card and Bankcard debit card. We accept EFTPOS but not cash, when making payment in our Perth office.

On receipt of your fees, your place at Curtin College will be confirmed. Most Letters of Offer issued by the College are packaged with an offer from Curtin University, hence Curtin College will issue eCoE’s (Electronic Conditions of Enrolment) as required. The eCoE’s are the key document required for your visa application.

2. Pay your fees to accept your offer

All international students must be in possession of a current study visa to be able to study in Australia. This visa is issued by the Australian Diplomatic Missions and application must be made directly to the nearest Consulate or Embassy. You are encouraged to use the services provided by our local agents who understand this process. The main documents required are:

- Letter of Offer from Curtin College
- Electronic Confirmation of Enrolment (eCoE), which is issued by the College upon receipt of fees
- Medical Examination Results
- Proof that OSHC has been arranged
- Proof of financial capability to pay tuition fees and living expenses.

Student visas are granted with certain conditions attached, including that you must:

- Satisfy course requirements – must attend a minimum 80% of all scheduled classes and make satisfactory academic progress
- Remain enrolled at all times
- Inform your education provider of any change of address
- Contact your current education provider if wanting to change institution within the first six months of commencing the principal course.

Curtin College is obliged under Australian Legislation to notify the Department of Immigration and Border Protection (DIBP) immediately when becoming aware of and breach regarding a student visa.

Please visit www.immi.gov.au/students for more information.

Applications can be made at any time. Please make sure to allow adequate time for the processing of your student visa.

1. Complete the application form in this book or apply online to take advantage of priority processing.
2. Attach certified copies of all academic qualifications, including school reports, official examination certificates and evidence of English competency (if required). Certified translations must accompany those which are not in English. Copies can be verified by:
   - the official records department of the institute that originally issued documents
   - a Justice of the Peace or Public Notary
   - an authorised Curtin College representative
   - an Australian overseas diplomatic mission or Australian Education
3. If not applying online, send your documents to Curtin College or one of our representative offices.
4. Successful applicants will be sent a Letter of Offer. We aim to make offers within 48 hours if your supporting documents are complete, although there can be delays where credit/exemption is sought for previous study, further checks are required during the offer period. It can take up to 10 days to process your application.

Payments should be made in Australian dollars to Curtin College by bank cheque or international bank draft. Payment can also be made by direct transfer to:

    Account name: Curtin College
    Bank name: Westpac Banking Corporation
    Branch address: Westpac Institutional Bank, 109 St Georges Terrace, Perth, Western Australia, 6000
    BSB: 036-000

4. Attend orientation to enrol

An orientation program is arranged for new students prior to the commencement of each study period. Attendance is compulsory for all new students. The date of your Orientation is detailed on your welcome letter. During Orientation you will learn about the campus, student support programs and meet your new classmates. You will also arrange your timetable and enrol in units as necessary for your course.

We look forward to welcoming you to Curtin College at Curtin University!
Conditions of enrolment

These Conditions of enrolment do not constitute a binding agreement. Successful applicants will receive the Terms of Offer, which together with the Letter of Offer and Acceptance of Offer, form a binding agreement between Curtin College and the recipient of a Curtin College Letter of Offer.

1. General

1.1. The availability of a course or program does not guarantee the right of the student to take the course or program. Curtin College reserves the right to vary or cancel courses or programs at any time. Successful applicants are subject to meeting the English requirements as stated in the Letter of Offer.

1.2. While the tuition fees stated in a Letter of Offer are based on current prices and are therefore indicative only, the final costs may be liable to change without notice. Curtin College will notify students of any changes to the fees involved with the course or program.

1.3. The Courses of Study are based on the information available at the time of publication. Curtin College reserves the right to alter or cancel Courses of Study at any time.

2. Tuition Fees

2.1. A full time study load is equivalent to four units in a Certificate course, or two units in a Diploma course.

2.2. Tuition fees, charges and accounts are payable in advance of the commencement of the course. The total tuition fees stated in a Letter of Offer are based on the information available at the time of publication. Curtin College reserves the right to alter or cancel Courses of Study at any time.

2.3. The total tuition fees stated in a Letter of Offer are based on the information available at the time of publication. Curtin College reserves the right to alter or cancel Courses of Study at any time.

2.4. Tuition fees are payable in accordance with the Notice to Pay Fees and Account details accompanying the Letter of Offer unless otherwise indicated.

2.5. At the time of enrolment, a non-refundable deposit of $2,000 will be required for all new students. A deposit is due at the time of enrolment and is non-refundable and non-transferable.

2.6. Students are required to notify the college in writing to defer a course of study within 7 days. Successful applicants are required to attend school during the first trimester of their course of study. Students are required to attend school during the first trimester of their course of study.

2.7. Students are required to attend school during the first trimester of their course of study. Students are required to attend school during the first trimester of their course of study.

2.8. As per section 27 of the ESOS Act, Curtin College must not commence a trimester/semester until all outstanding fees, which include the non-refundable deposit, have been paid. Students are required to attend school during the first trimester of their course of study. Students are required to attend school during the first trimester of their course of study.

3.Refunds and Cancellation of Enrolment

3.1. A student withdraws from a course of study must be made in writing to Curtin College. Curtin College reserves the right to alter or cancel Courses of Study at any time.

3.2. Curtin College reserves the right to alter or cancel Courses of Study at any time. Curtin College reserves the right to alter or cancel Courses of Study at any time.

3.3. Curtin College reserves the right to alter or cancel Courses of Study at any time. Curtin College reserves the right to alter or cancel Courses of Study at any time. Curtin College reserves the right to alter or cancel Courses of Study at any time.

3.4. Curtin College reserves the right to alter or cancel Courses of Study at any time. Curtin College reserves the right to alter or cancel Courses of Study at any time.

4. Medical / Disability Needs

4.1. Personal information on students collected prior to commencing or while enrolled is collected for the purposes of the Tuition Protection Service, and is subject to the provisions of the Privacy Act 2000, the ESOS National Code 2001 and other relevant Commonwealth, State and Territory laws. This information may include personal and contact details, course enrolment details and the circumstances of any suspension by Curtin College.

5. Tuition Assurance

5.1. In the unlikely event that Curtin College is unable to deliver a course or program, an alternative course or program will be provided. Curtin College reserves the right to alter or cancel Courses of Study at any time.

6. Transfer between registered providers

6.1. Tuition fees paid by students of registered providers prior to commencing or while enrolled are to be made available to relevant Commonwealth and State Government agencies by Curtin College under the Tuition Protection Service provided for by the Education Services Guarantee Act 2000, the ESOS National Code 2001 and other relevant Commonwealth, State and Territory laws. Curtin College reserves the right to alter or cancel Courses of Study at any time.

7. Personal and Contact Information

7.1. Personal and Contact Information is collected for the purposes of the Tuition Protection Service, and is subject to the provisions of the Privacy Act 2000, the ESOS National Code 2001 and other relevant Commonwealth, State and Territory laws. Curtin College reserves the right to alter or cancel Courses of Study at any time.

8. Privacy of Information

8.1. Curtin College respects the privacy of personal information. Curtin College is committed to protecting personal information by ensuring it is collected, used and disclosed in accordance with the Privacy Act 2000, the ESOS National Code 2001 and other relevant Commonwealth, State and Territory laws. Curtin College reserves the right to alter or cancel Courses of Study at any time.

9. Medical / Disability Needs

9.1. Personal and Contact Information is collected for the purposes of the Tuition Protection Service, and is subject to the provisions of the Privacy Act 2000, the ESOS National Code 2001 and other relevant Commonwealth, State and Territory laws. Curtin College reserves the right to alter or cancel Courses of Study at any time.

10. Personal and Contact Information is collected for the purposes of the Tuition Protection Service, and is subject to the provisions of the Privacy Act 2000, the ESOS National Code 2001 and other relevant Commonwealth, State and Territory laws. Curtin College reserves the right to alter or cancel Courses of Study at any time.
Yes, the duration of my course. I understand that information I provide to Curtin College may be made available to Australian Government agencies and the Tuition Protection Scheme Director.

In my application is my primary purpose for coming to Australia. I accept I am responsible for obtaining an Australian student visa for the duration of my studies. DECLARATION

I declare the information I have supplied on this form and in the attached documents is correct and complete. I understand that the provision of false or incomplete information may result in cancellation of any offer of enrolment or actual enrolment. I declare I am a Genuine Temporary Entrant and a Genuine Student and confirm that studying the program indicated in my application is my primary purpose for coming to Australia. I accept I am responsible for obtaining an Australian student visa for the duration of my studies. I fully understand my obligations as an Australian student visa holder. The Department of Immigration and Border Protection (DIBP) may refuse or cancel my visa if I provide fraudulent documents, am not a genuine student, or do not meet health and character requirements. The execution of this application form authorises Curtin College, as necessary, to provide information in the form to Curtin University and, as part of our assessment processes, to seek further information from Australian Government agencies if required. I have read and understand the need to make timely payments of any fees or associated costs for which I am liable. I am aware of the Meds costs of my study in Australia and have the necessary financial capacity to meet such costs for the duration of my study. I declare that I am an Australian resident for tax purposes, pursuant to the ITAA 1936 and the National Code, and that Curtin College is required under S10 of the ITAA 2000 to notify DIBP about certain changes to a student’s enrolment and any breach of student visa conditions. Execution of this application form constitutes my acceptance of the College’s Conditions of Enrolment (Australian Curriculum) to retain my tuition fees in accordance with the refund policy if I choose to cancel my enrolment at any time.
